Dubai, UAE

Strategic and results-driven Automation Leader with over 10 years of experience delivering enterprise-scale intelligent automation solutions. Proven ability to drive digital transformation through RPA, and low-code platforms across industries including Travel, Telecom, Finance, Entertainment, and F&B. Adept at leading cross-functional initiatives using UiPath, Automation Anywhere, Power Platform, Python, and API integrations. Known for optimizing operations, transforming manual workflows, and aligning technology with business goals.

SKILLS

- **RPA & Automation:** UiPath, Automation Anywhere A360, Power Automate (Desktop/Cloud), AI Builder, Document Understanding, Cognitive Services
- **Programming:** Python, Java, VBScript, VBA, PL/SQL
- **Integrations:** SharePoint Online, Excel Macros Automation, Outlook Automation, PDF & OCR Processing, REST/SOAP APIs, JSON/XML Parsing, Orchestrator APIs
- **Databases:** SQL Server, Oracle, MySQL (queries, optimization, stored procedures), Denodo, Snowflake
- **ETL & Reporting:** Oracle Data Integrator (ODI), Informatica, Power BI (data transformation, dashboards)
- **Development & DevOps:** Agile, Scrum, Git, Jira, SVN, SDLC

CERTIFICATIONS

- **UiPath:** Advanced RPA Developer, Foundation, Orchestrator for Developers, Document Understanding
- **Automation Anywhere:** Advanced RPA Professional (A2019), Master RPA (A360), Bot Developer
- **Microsoft Power Platform:** Fundamentals (PL-900), Data Analyst Associate (PL-300)
- **Oracle:** ODI 12c Certified

WORK EXPERIENCE

Shamal Holdings – Dubai, UAE

03/2024 - PRESENT

Assistant Manager, Hyper automation Platform

- Led end-to-end automation strategy and delivery across Lifestyle, Entertainment, and F&B verticals, leveraging UiPath Studio, Orchestrator, and Queues to optimize cross-departmental workflows.
- Legacy Projects Repository: Centralized legacy project documents by mining email archives and auto-sorting attachments, giving management quick, organized access.
- Legal Document App: Built a Teams-integrated app to fetch legal documents by entity/type, auto-shared with authority in CC, and applied timed access controls for compliance.
- Skydive Revenue Forecasting: Created a forecasting model using data from inception and Dubai seasonality, improving accuracy of revenue planning.
- Designed and deployed reusable UiPath automation frameworks for Finance, Procurement, HR, Legal, and Investment teams, ensuring scalability, security compliance, and adherence to best coding practices.
- Automated complex reconciliation, financial reporting, and operational tracking by integrating UiPath with Power Automate, Power BI, and Microsoft Dataverse, reducing manual effort by over 60%.

- Developed low-code business apps using Power Apps to complement UiPath workflows, streamlining staff onboarding, leave approvals, and internal service requests.
- Delivered hyperautomation impact by successfully implementing 25+ business-critical automations within 12 months under Agile/DevOps practices, with measurable ROI.
- Collaborated with stakeholders to gather process requirements, document technical designs, conduct rigorous testing, and provide post-deployment support.

ALMOSAFAER SEERA – Dubai, UAE

04/2022 - 03/2024

Senior Automation Specialist

- Delivered end-to-end automation across Finance, HR, and Marketing using Automation Anywhere 360, Python, OCR, and APIs.
- Built Automation Anywhere bots for SAP HANA, SAP GUI, Fiori, and web-based SAP apps, integrating BAPIs/APIs and executing SQL queries for data extraction, validation, and reporting.
- Developed low-code apps and dashboards with Microsoft Power Platform and Dataverse to streamline internal workflows.
- Enforced automation governance by applying architecture standards and best practices.
- Designed scalable automation flows integrating Excel, Google Suite, PDFs, and REST APIs.

ETISALAT – Dubai, UAE

11/2019 - 04/2022

Senior RPA Consultant

- Led automation development for Business, Consumer, and HR departments using UiPath, SQL, and Power Automate.
- Integrated Orchestrator for scheduling, asset management, and bot monitoring.
- Conducted AI-assisted email classification and bot-human handoffs using adaptive flows and data validation.
- Streamlined approval flows, custom services, and escalation frameworks via Microsoft Power Platform.

ACCENTURE – Pune, India

01/2018 - 11/2019

Associate

- Delivered complete automation lifecycle: process identification, demo POCs, bot development, hyper-care, and support.
- Automated Java-based applications, SharePoint, SAP, and other enterprise apps using UiPath and orchestrated via Kibana analytics.
- Designed and deployed UiPath automation solutions integrating directly with SAP HANA, SAP GUI.

Infosys LTD.– Pune, India

02/2015 - 01/2018

Senior Systems Engineer

- Built automation pipelines for Load Plan Scheduling and ETL processes using Informatica and ODI for data warehousing.
- Integrated data from heterogeneous sources into reporting dashboards for business intelligence.

EDUCATION

Nagpur University - Maharashtra, India

Bachelor of Engineering, April 2014
